Magnetic Backed Leather

spinneybeck

About

Magnetic Backed Leather creates flexible visual interest for a wide range of vertical and horizontal surfaces such as walls, headboards, and metal furniture. Featuring a 1/8 inch (3.2 mm) magnetic backing, it easily attaches to any existing metal surface and provides an affordable architectural alternative. Its sleek profile effortlessly transforms a bank of lateral files, metal bookcases, or storage towers. In addition, with the use of magnetic paint, wall surfaces can quickly transform into a wall of texture and color. Plus the tiles can be relocated, making a cost efficient design option. Choose a single color for a more formal look or multiple textures, sizes, and colors to create a custom mosaic.
