

Leather Handrails

Spinneybeck

Leather Handrails

Spinneybeck Leather Handrails transform a standard support bar into a user friendly work of art with unique aesthetic and tactile qualities. They offer an elegant and durable solution for commercial, hospitality, educational and residential stair, elevator, and door rail applications. Spinneybeck Leather Handrails enhance any environment.

Originating in Europe, the craft of creating leather wrapped handrails is an art form. The leather is cut into 3/4" to 1" wide strips, shaved and turned at the edges to allow for overlapping. The leather strips are then adhered to the handrail material. For a more polished, seamless and smooth aesthetic, the handrail can also be wrapped and stitched on the underside.

Overlapping Leather Handrail shown in ES8078.

In a contemporary or more rustic environment, Spinneybeck Leather Handrails add a beautiful tactile quality to any installation. Handrails can be further enhanced with embossed patterns, perforated accents, and contrasting stitching. The unlimited range of colors and leather styles offer abundant design solutions.

Installation Instructions

We recommend that the leather handrail be fabricated off-site by an experienced contractor or by Spinneybeck. Contact Spinneybeck for pricing and further information.

Maintenance

Spinneybeck Leather Handrails are easy to maintain with regular dusting and spot cleaning with cool water and a soft cloth. Occasional use of Spinneybeck leather maintenance products is recommended. Other leather cleaners such as saddle soap or household cleaners that may contain harsh chemicals, alcohol or ink removers should never be used on Leather Handrails.

All Spinneybeck Leather is tanned, dyed, and finished in Italy, according to the most stringent environmental requirements. Spinneybeck Leathers are Greenguard™ certified.

Contact Spinneybeck for leather samples and additional information.
