

Channel Wrap

Leather Handrail

spinneybeck

About

Spinneybeck Leather Handrails elevate an overlooked rail to a tactile, distinctive feature. This elegant and durable solution for stairs or elevator and door hardware enhances a space with a handcrafted, bespoke architectural element. Originating in Europe, the craft of wrapping handrails in leather is truly an art form. The leather is cut, shaved, and wrapped by hand adhering the leather to the handrail substrate. To create a clean look, a brushed aluminum channel insert is fixed at the underside of the handrail. Customizable options include leather type.

Specifications

Name	Channel Wrap Handrail
Substrate	2 in (5.1 cm) dia. Aluminum
Leather Types	AD, AL, AQ, AU, CA, CO, CV, DE, DL, DT, DV, ES, ET, FE, HT, LC, LU, MA, MM, PT, RA, RU, SA, SL, SS, UM, VO, VP, VZ
End Caps	Stainless steel end caps are additional
Mounting Brackets	Stainless steel mounting brackets are additional
Length	Standard pricing applies to straight handrails of 10 lin ft (3 lin m) or more. Shorter lengths and any bends or curves must be quoted.
Maintenance	For finished leathers, wipe with a cool, damp cloth. For tougher soiling, use a pH-balanced soap and rinse. Repeat, if needed. For naked (aniline) leathers, wipe entire surface with a soft cloth and cool water to even out any abrasions or stains. Do not spot rub, for it will darken only that area. Occasional use of Spinneybeck maintenance products is recommended. Other leather cleaners such as saddle soap or household cleaners that may contain harsh chemicals, alcohol or ink removers should never be used.
Lead Time	Made to order and certain lead times will apply
Installation	Handrails should be fabricated off-site by an experienced metal fabricator or fabricated and manufactured by Spinneybeck. Installation services available through Spinneybeck.
Custom	Embossed or perforated leather and curved rails must be quoted
Standard Colors	Refer to Color Book for available colors
