

Hide Dimensions

Spinneybeck Hide Sizes

Below are the average hide sizes for each leather type in the Spinneybeck product line. Average hide sizes are subject to change at any time due to the availability of raw material.

Hide Size	Leather Type
60–65 sq ft (5.6–6.0 sq m)	HT
55–65 sq ft (5.1–6.0 sq m)	AD, AU, FE, SL, VP
55–60 sq ft (5.1–5.6 sq m)	DE, DT, LC
50–60 sq ft (4.6–5.6 sq m)	LU, UM
50–55 sq ft (4.6–5.1 sq m)	AF, AL, AQ, CV, DV, ET, ES, PT, RA, SA, VO, VZ
45–50 sq ft (4.2–4.6 sq m)	CA, CO, HH, RU
18–22 sq ft (1.7–2.0 sq m)	BL, MM

The Largest Dimension by Hide Size

As a hide is an irregularly shaped, natural material, the entire surface of a hide is not usable even with the highest quality product. Depending on pattern sizes and layout and the level of acceptance of natural characteristics, the cutting yield can vary considerably. It is recommended to always follow furniture manufacturer's C.O.L. requirements, which are typically based on 50–60 sq ft hides. Leather requirements for any architectural products, such as wall panels, need to be calculated by an experienced fabricator.

Hide Size	Approximate Largest Dimension (Width × Length)*
65 sq ft (6.0 sq m)	65" × 75" (165.1 × 190.5 cm)
60 sq ft (5.5 sq m)	60" × 70" (152.4 × 177.8 cm)
55 sq ft (5.1 sq m)	55" × 70" (139.7 × 177.8 cm)
50 sq ft (4.6 sq m)	55" × 65" (139.7 × 165.1 cm)
45 sq ft (4.2 sq m)	50" × 60" (127 × 152.4 cm)
30 sq ft (2.8 sq m)	50" × 30" (127 × 76.2 cm)
20 sq ft (1.8 sq m) of BL	48" × 38" (121.92 × 96.52 cm)
20 sq ft (1.8 sq m) of MM	40" × 40" (101.6 × 101.6 cm)
Hide of FT	24" × 42" (61 × 106.7 cm)

* These dimensions are intended only as a guideline and should not be used to estimate leather yield for any project or application. Within the size listed there will be visible natural markings such as neck wrinkles, fat wrinkles, healed scars, and backbone, which are characteristics of a natural product.
