

Leather Weave

Upholstery and Architectural Leather

spinneybeck

About

Leather Weave takes quality upholstery leather and creates depth and pattern by weaving thin strips together. This unique covering for upholstery and architectural products offers a distinct look with a more efficient use of leather as an entire hide can be used to make the product.

Custom

Any Spinneybeck leather may be used to create custom Leather Weave including pearled, sueded, and four patent leathers. Up to three different leathers styles may be used to create subtle or dramatic patterning. Also choose from 0.2 in (5 mm) or 0.28 in (7 mm) strip width and roll width of 27 in (69 cm), 36 in (91 cm), or 38 in (97 cm).

One Leather
in 5mm or 7mm Strip Width

Two Leathers
in 5mm or 7mm Strip Width

Three Leathers
in 5mm or 7mm Strip Width
