Silent-Silo™
Acoustic Office Pod
spinneybeck
Silent-Silo™ is an office pod that thinks outside of the box.

This unexpected circular booth comes in forty-eight inch diameter size with sound softening properties inside and out plus has oodles of finish options.

Conceived by iconic designer, Carl Gustav Magnusson, the clever circular design of Silent-Silo takes up a smaller footprint while maximizing functionality. And unlike most office booths, Silent-Silo does double duty on sound absorption with a quiet interior perfect for heads-down work or a private phone call and an exterior that softens sound all around. Choose from over one hundred finish options of Dukta Flexible Wood and 100% Wool Design Felt to create a Silent-Silo that’s all your own.
Choose from Flexible Wood or 100% Wool Design Felt exterior with over one hundred options, an interior and ceiling disk in sixty-six felt colors, and add a pop of color with the optional leather pull insert to make each Silent-Silo oh-so-unique and highly customizable. Stay natural and neutral or choose colors that make an impact in an office pod that is equally as well suited to a gaming startup as it is on a floor with the c-suites. Plus, add customized booth numbers and distraction banding for just the right fit.

(For more information on Silent-Silo with FilzFelt 100% Wool Design Felt, please visit filzfelt.com/silent-silo.)
1 | Go All-Natural
Choose from forty-two Dukta Flexible Wood options with three patterns and fourteen wood types + sixty-six colors of 100% Wool Design Felt underlay for the exterior.

2 | Soften Sound All Around
The sound-absorbing exterior provides an NRC rating of 0.50 with 100% Wool Design Felt or 0.10 with Dukta Flexible Wood.

3 | Shed Some Light on the Subject
An occupancy sensor activates the efficient overhead LED lamp and fan that cycles the pod with fresh air every two minutes.

4 | Get Powered Up
Power up all your devices easily with a power outlet and USB charger.

5 | Head's Down
The efficient worksurface allows plenty of space for your laptop or other devices and features a cup holder and bag hook on the underside to keep everything within reach.

6 | Get Some Quiet Time
The interior of the pod is wrapped in sound-softening wool felt and the felt jamb strip and wall construction block those private conversations from being overheard.

7 | Take it to the Next Level
Leveling feet allow space for air intake and allow the pod to be easily leveled.

8 | Power it Up
The standard 120V plug with eight foot long cord allows you to plug and play and hides discreetly if plugged into a floor core. And hard-wired power is available, if needed.
About the Designer

Carl Gustav Magnusson is recognized as one of the profession’s most acclaimed design minds. Swedish born and educated in architecture, he has dedicated his career to the profession. After working with Ray and Charles Eames, he opened his namesake design studio in Rudolf Schindler’s House in North Hollywood, California. Later as the Director of Design with Knoll for three decades, he worked with the likes of Massimo and Lella Vignelli, Ferdinand Porsche, Gae Aulenti, Richard Sapper, Emilio Ambasz, Maya Lin, Ross Lovegrove, and Don Chadwick. Under his tenure, Carl also established the Knoll Design Symposium at The Cranbrook Academy of the Arts and cofounded The Knoll Museum in East Greenville, Pennsylvania.

| **Door Direction Options** | Left-hand (door slides left to open)  
Right-hand (door slides right to open) |
| **Sliding Door** | 3/8 in (9.5 mm) Clear Acrylic |
| **Door Signage Options** | Booth Number: Custom—available with upcharge  
Distraction Banding: Custom—available with upcharge |
| **Worksurface Placement Options** | Left Side  
Right Side |
| **Power Options** | 8'-0" (243.8 cm) Cord + 120V Plug or Hardwired |
| **Airflow** | Light and fan turn on automatically with an occupancy sensor—the fan circulates air at 51 cubic feet per minute (24.1 liters per second) which refreshes all the air in the booth every two minutes |
| **Interior Light** | Light output is 2,760 lumens with color temperature of Natural 4,000K—LED lifespan is 50,000 hours |
| **Assembly Options** | Silent-Silo includes leveling feet and may be shipped fully assembled or ready-to-assemble (RTA) |
| **Wool Felt Exterior** | Silent-Silo is also available in an acoustic wool felt exterior—for more information, please visit filzfelt.com/silent-silo |
| **Stool** | Stool not included—Fully Luna Standing Desk Stool or Muuto Fiber Counter Stool are recommended and purchased separately |
| **Maintenance** | Wood: Wipe with a dry, lint-free cloth. Wash once a year with a mild soap (such as Dawn) and water solution, rinse with damp cloth, and dry immediately with a clean cotton cloth or towel.  
Wool Felt: Vacuum occasionally to remove general airborne debris. Should soiling occur, spot clean with mild soap and lukewarm water.  
Acrylic: Using a microfiber cloth, wipe with a mild soap (such as Dawn) and water solution (1 teaspoon detergent to 1 quart lukewarm water). Scratches may be polished with Novus No. 1 Plastic Clean and Shine. Reapply regularly to maintain the anti-static, smudge, and scratch-resistant proper-ties.  
Acqua Leather: Wipe with a cool, damp cloth. For tougher soiling, use a pH balanced soap (such as Dawn) on cloth and rinse. Though Acqua may be cleaned with harsh clearing products such as bleach, do not use on the leather pull insert as it may damage the anodized aluminum pull. |
| **Order Specification** | To order, specify the following: Exterior Wall color, Interior Ceiling color, Interior Wall color, Acoustic Felt Strip color, Door Pull Insert finish/color, Door direction, Worksurface placement, Power, Assembled or RTA |
| **Lead Time** | Made to order and certain lead times will apply |
| **Environmental** | 100% Wool Design Felt is 100% biodegradable/compostable and Akustika 10 contains minimum 60% post-consumer recycled content and is 100% recyclable  
Contains no formaldehyde, 100% VOC free, no chemical irritants, and free of harmful substances |
| **Custom** | Standard pricing applies to standard finishes—custom finishes must be quoted |
| **Variation** | This product is made with natural materials and minor changes in color are evidence of the 100% natural origin of the material. |
| **Acoustics** | ASTM C 423: NRC – 0.10, SAA – 0.10  
ASTM E 90: STC – 38 |
| **Environmental** | Oeko-Tex© Standard 100 Certified Product Class II (100% Wool Design Felt + Akustika 10 Substrate)  
Meets VOC test limits for the CDPH v1.2 method (100% Wool Design Felt + Akustika 10 Substrate) |
