Fossil

Specifier	Corgan Associates
Location	Richardson TX
Product	Hand Tipped
Color	HT 1517 Elkhorn

At the headquarters of Fossil, the American clothing and accessory brand, the design of the new space needed to meet the classic authenticity established in 1984. At a workplace where teamwork is necessary, huddle areas with Knoll Barcelona chairs are upholstered in a warm, caramel color of Hand Tipped. The two-tone effect of this pebble grain leather is achieved through the base dye coloration and treatment where the tip of the pebble grain is dyed with a dark overtone applied by hand. A light clear coat finish makes this leather durable and relatively maintenance free.
