Furnishings take center stage with bright blue leather upholstery at the Atlanta headquarters of Intercontinental Exchange (ICE), a regulated exchange and marketplace clearinghouse company. The interior renovation by Heery International is designed to support an evolving 'smart' workplace and includes a mix of materials, balancing natural materials with sleek modern finishes. Ducale Velour is upholstered on Knoll's Jehs+Laub lounge chairs in the reception area and Sabrina on Herman Miller's Eames Aluminum Group chairs in an executive conference room.
